For **Youth Sizes** you will need to take additional measurements to insure a proper fit. When ordering please refer to the Youth chart, which indicates our jacket and pant measurements. The patterns allow for a 2" wearing ease. (Example, if you have someone with a 25" chest and you order a size 6, the material actually measures 27".)

Arm Length: Hold arm down in a slightly bent position. Measure from elbow to top of shoulder and add 1/2" to this amount. Then measure from wrist bone above the little finger to elbow. Add these two measurements together for total arm length.

Upper Back: With arms raised out to the side at shoulder level, measure from one arm pit over to the other arm pit.

Back Length: Measure from the nape of the neck down to the waist.

Front Pant Rise: From the front of the crotch up to the waist.

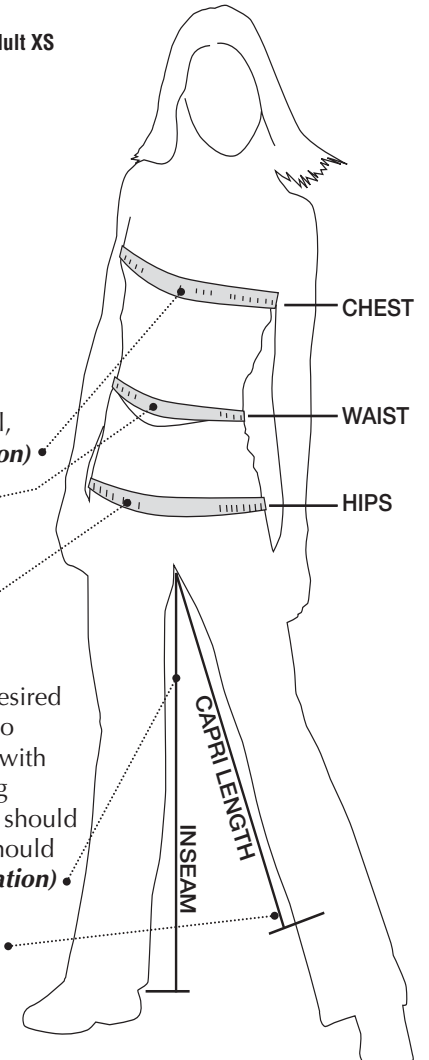

Back Pant Rise: From the front of the crotch up the back to the waist. (For the pant rises you can have them bring in a pair of pants, of which they like the fit, and measure the center front and center back seams up to the top of the waistband.)
